Østre Stavrum – my farm

Inn på tunet Norge SA

Norwegian Farmer's Union

Green Care (Inn på tunet)

Green Care refers to individually adapted and quality-assured welfare services on farms.

The services shall stimulate coping skills, development and well-being.

Farms are properties that are used for farming, forestry or gardens. The activities offered in the Green Care service relate to the farm and its daily life and operations.

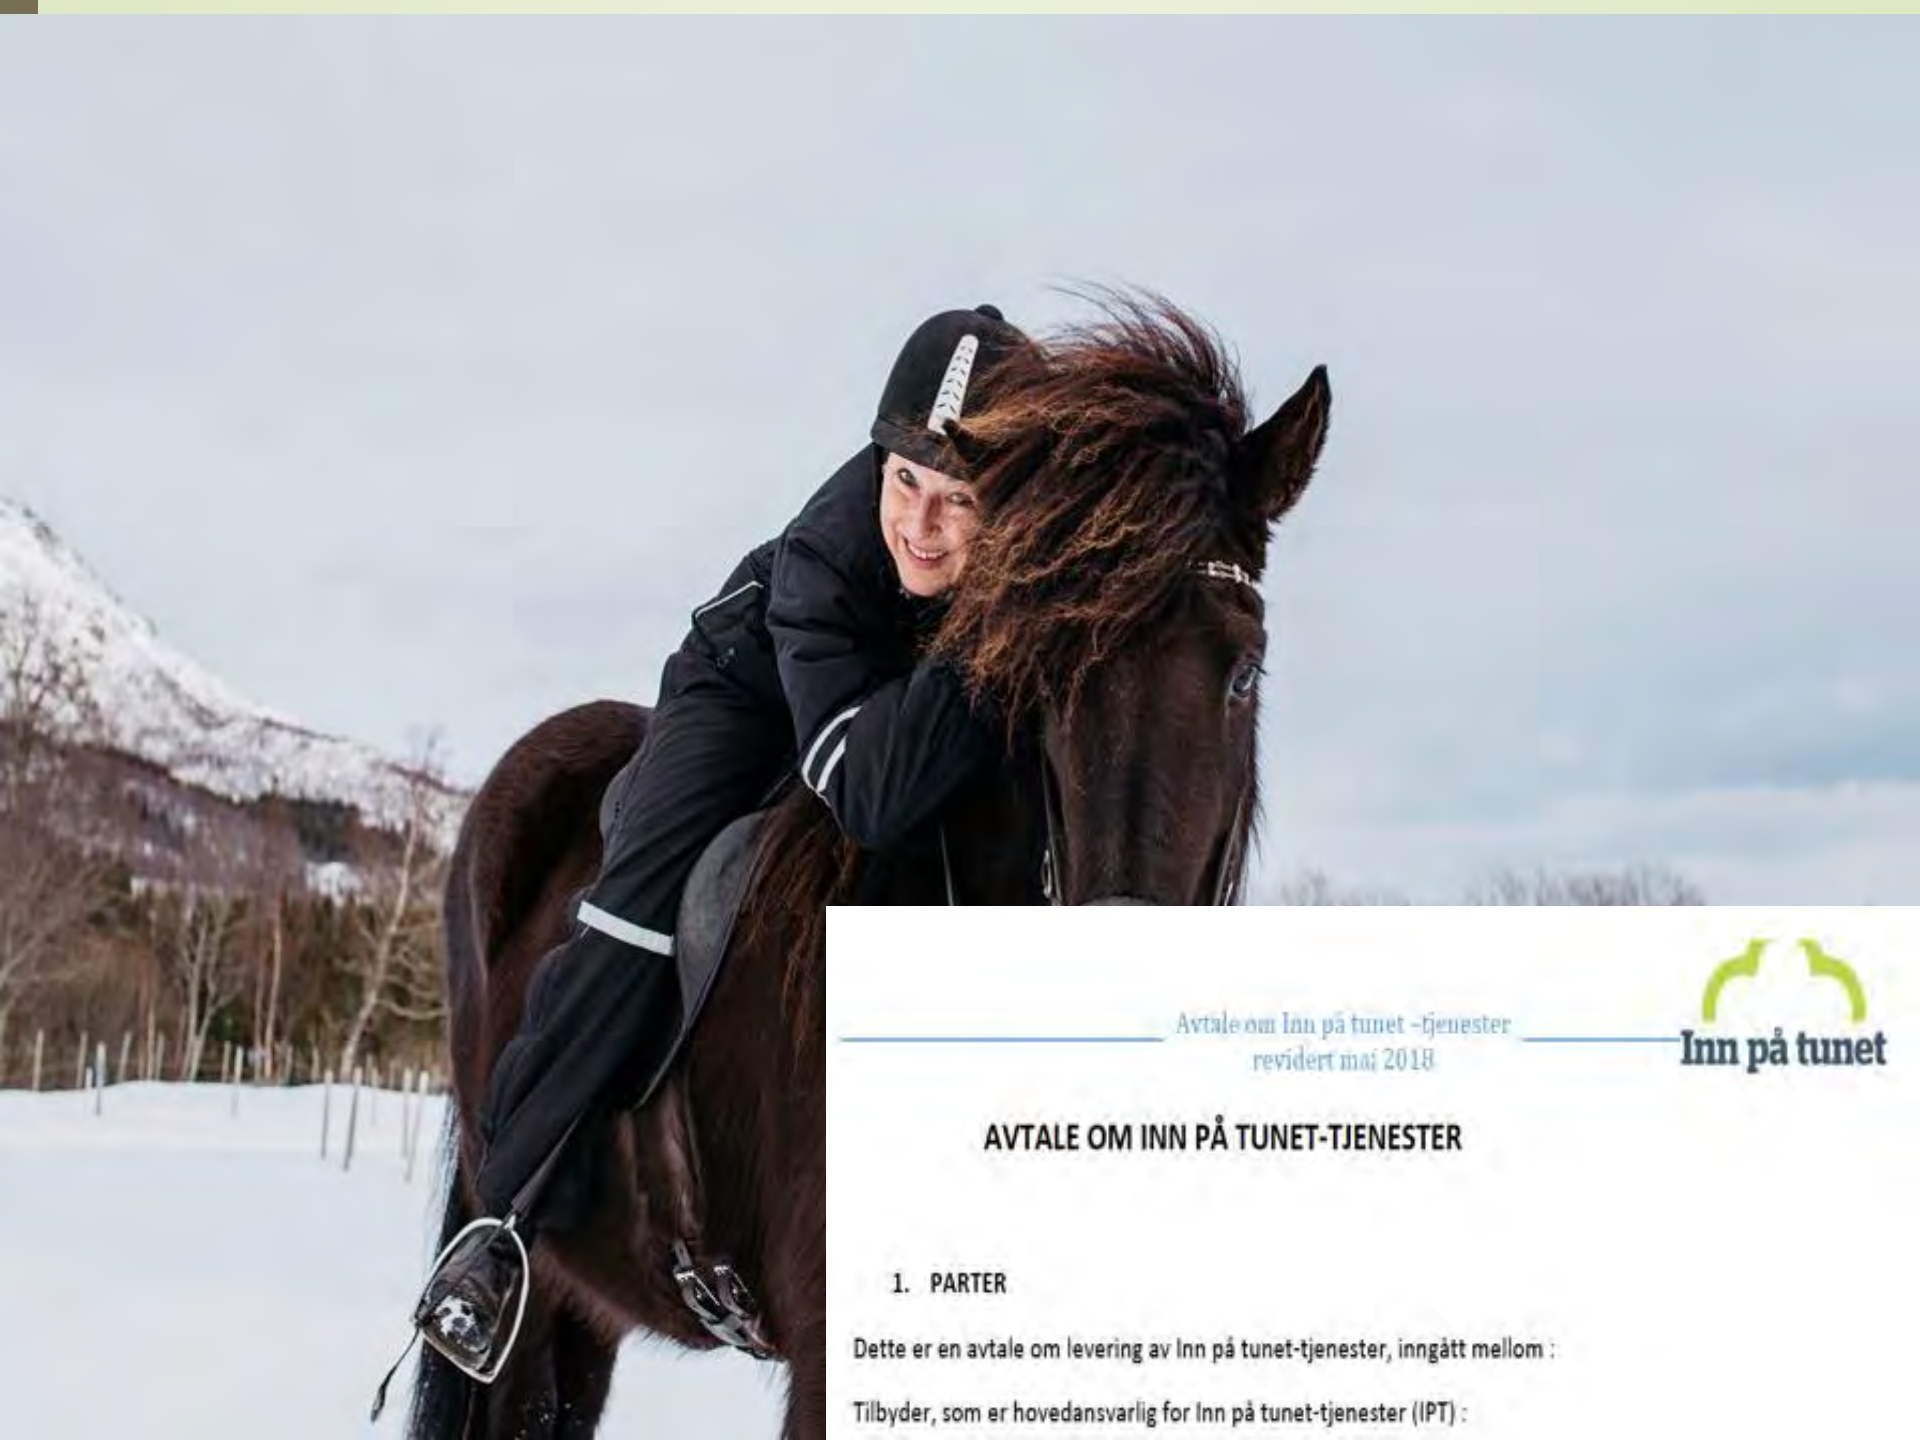

- Care farming services for persons with dementia
- The farm as a pedagogical resource
- Different groups
 - Immigrants - language training – integration - learning
 - Problem youth – farmer and family as role model
 - Mental illness – social community – flexibility to adjust work to daily conditions
 - Intellectual disabilities – real work – learning opportunities
 - Drug abuse – social community – real job – keep away from drugs
- Children and their families

Certification

”Inn på tunet”

- Stiftelsen Norsk Mat
- Part of the Norwegian Agricultural Quality System (KSL)
- Quality assurance build on a clear division of roles and responsibilities.
- Quality of services is documented based on criteria based in law, regulations, and professional practises for the service in question.
- The certification is mandatory
- Almost 400 farms in Norway today

1. PARTER

Dette er en avtale om levering av Inn på tunet-tjenester, inngått mellom :

Tilbyder, som er hovedansvarlig for Inn på tunet-tjenester (IPT) :

Care farms financing

- The purchaser pays the farms for this welfare services.
- The farms must compete with other providers in the market.

Inn på tunet Norge SA

This is a cooperative
owned by Green
care-farmers

Together we become
more innovative and
competitive

The farmers own their
own business and
keep the profit.

Market activities are
professionalized

The cooperative
create social
relations that enable
farmers to achieve
goals that we may
not otherwise be
able to achieve by
themselves.
